

GIO ANTHONY A. CALLOS

Full-Stack Developer | Information Systems Graduate | AI/ML Integration

Tubungan, Iloilo, Philippines • 0968 727 3788 • gioanthony.callos@wvsu.edu.ph • github.com/yongNotgio

PROFESSIONAL SUMMARY

Information Systems graduate, Magna Cum Laude, with hands-on experience in full-stack web and mobile development, AI/ML integration, database systems, and product development. Worked as a Full-Stack Developer at Knode Software Services and later joined the TwoTabs AI Fellowship Program as a Full-Stack Developer. Experienced in building practical systems from frontend and backend development through deployment, with a strong focus on AI-enabled applications.

PROFESSIONAL EXPERIENCE

Full-Stack Developer | TwoTabs — AI Fellowship Program | June 2026 – August 2026

- Developed and contributed to full-stack applications as part of an AI-focused fellowship program.
- Worked across frontend, backend, databases, and AI-enabled product features in a collaborative development environment.
- Applied rapid prototyping, debugging, and iterative development practices to build working product features.

Full-Stack Developer | Knode Software Services | January 2026 – May 2026

- Worked as a full-stack developer during a professional software development internship.
- Contributed to web application development across frontend and backend components.
- Worked with databases, APIs, deployment workflows, and team-based software development practices.

EDUCATION

Bachelor of Science in Information Systems | West Visayas State University – Main Campus | 2022 – 2026

- Major in Business Applications Development
- Graduated Magna Cum Laude

SELECTED PROJECTS & ACHIEVEMENTS

PhantomWake — Physics-Informed Maritime Intelligence Platform | AI Hackathon 2026 | Champion

- Built a maritime intelligence platform that turns historical satellite and AIS vessel data into patrol-ready intelligence across Philippine waters.
- Implemented a rolling vessel-activity watchfloor with month-based playback, AIS filtering, and density-cluster visualization.
- Developed Blackout Replay capabilities to flag AIS-dark vessels, project likely vessel movement after signal loss, and map suspicious activity corridors.
- Added Playback, Tasking Advisory, Hotspot Forensics, and Zone Risk screens for time-based investigation, SARwAIS tasking, seasonal hotspot analysis, and patrol/fisherfolk risk classification.

DiaTrack: Hybrid XAI-Enabled Diabetes Care Management System | Undergraduate Thesis Project | 2025–2026

- AI-powered healthcare platform with a Flutter mobile application and React/Supabase web portals for multi-role collaboration.
- Integrated ensemble machine learning, fuzzy logic, and EfficientNetB0 with Grad-CAM for risk stratification and clinical decision-support features.

DiaSight: Non-Invasive Diabetic Retinopathy Risk Stratification | Competition Project | 2025

- Built a React-Supabase application for diabetic retinopathy risk stratification with real-time results.
- Awards: National Champion — PSC X 2025; Regional Champion — AI.deas for Impact 2025; Champion — WestNovation 2025; First Runner-Up — National AI Fest 2025; Best Presentation — ISIS 2025, Cheongju, Korea.

Capiz Doctor's Hospital – Operational Intelligence Dashboard | Team Project | 2025

- Built a Streamlit and Python dashboard for hospital KPIs, staffing efficiency, readmission risk, and inventory performance.

Unblot: Poetry Social Platform | Personal Project | 2025

- Developed a full-stack React-Supabase platform with authentication, poetry publishing, social interactions, feed functionality, and search.

TECHNICAL SKILLS

Languages: Python, Java, PHP, JavaScript

Web: React.js, Vite, HTML5, CSS3, jQuery

Mobile: Flutter

Backend & Data: Node.js, MySQL, Supabase, Firebase

AI/ML: Machine Learning Integration, XAI, Model Deployment, Streamlit

Tools & Platforms: GitHub, Figma, Canva, Power BI, Microsoft Office

CORE COMPETENCIES

Full-Stack Web & Mobile Development • AI/ML Integration & Deployment • Database Design & Management • System Analysis • UI/UX & User-Centered Development • Agile Team Collaboration • Problem-Solving • Rapid Learning
